

DIEGO DUBÓN

Integration & Automation Developer | API Integrations · Workflow Automation · Python · TypeScript · English C1
Guatemala City | +502 3035-5643 | diegodubon03@gmail.com | linkedin.com/in/diego-dubón-3592a82ab | github.com/DiegoDubon31

SUMMARY

Integration developer who builds the APIs and automation that connect enterprise systems and explains them to their users. **Cut lab-sample processing time 50%** with API-triggered RPA, **migrated ~3,000 IT assets** through C#/.NET API middleware, and turned stakeholder requirements into **API specs for two external partners**. Leads a Python compiler-construction lab for 41 students.

TECHNICAL SKILLS

Languages & Frameworks: Python, TypeScript, JavaScript, Node.js, React, jQuery, C# (.NET), PHP (Laravel), Java
APIs & Integration: REST APIs, API integration, Apache Camel Karavan, SAP BTP, CyberSource, Power Automate Cloud & Desktop (RPA), workflow automation, n8n
Cloud, DevOps & Data: AWS (EC2, S3, IAM), Docker, GitHub Actions (CI/CD), Git, MongoDB, MySQL, PostgreSQL
Practices: Requirements gathering, stakeholder communication, solution design, troubleshooting, debugging, technical documentation, Scrum, Scrum@Scale

PROFESSIONAL EXPERIENCE

DISAGRO

May 2025 – Present

Systems Engineering Trainee, Application Development & Integrations | Guatemala City

- **Build and support automations, integrations, and web apps for internal business areas** (HR, Operations, SAP), turning their requests into working solutions in a Scrum@Scale team and supporting them in production.
- **Cut lab-sample processing time by 50%** (from 20 minutes to 10 per sample) by building an API-triggered hybrid RPA workflow (Power Automate Cloud + Desktop) that keeps two enterprise systems in sync; walked the lab team through the new process and served as vendor point of contact.
- **Turned stakeholder requirements into API specifications for two external partners**, and documented 15 enterprise systems, including host-to-host banking integrations, as the team's selected architect.
- **Led the InvGate Assets Management implementation, migrating ~3,000 IT assets on schedule**, and upgraded the custom C#/.NET middleware that connects InvGate's API to internal systems.
- **Made every Costa Rica SAP e-invoice traceable for debugging** by building XML-to-JSON transformations (Groovy, Jackson) in Apache Camel Karavan that store provider requests and responses in MongoDB.

Universidad de San Carlos de Guatemala

Jul 2026 – Present

Teaching Assistant (Lab Instructor), Programming Languages & Compilers 2 | Guatemala City

- **Lead the course lab, teaching 41 students to build a working compiler in Python (PLY)**, covering lexical analysis, parsing, and code generation, and reviewing their lab code.

Manada Mammuth

Aug 2026 – Present

Full-Stack Developer (Independent Project) | manadamammuth.com

- **Shipped a production event platform serving 300 participants per event** in Laravel/MySQL, containerized with Docker and deployed to DigitalOcean on every push through a GitHub Actions pipeline.
- **Replaced manual paperwork with 300 auto-generated documents per event** via a document-generation pipeline and a check-in flow with algorithmic group assignment.

IceBearSoft (client: AYUVI)

Apr 2026

Freelance Backend Developer | ayuvi.org.gt

- **Launched 3-D Secure card payments** on the AYUVI website by integrating the CyberSource gateway: wrote the JavaScript for the multi-step validation exchange between browser, Laravel/PHP backend, and CyberSource.

Allied Global (Verizon account)

Jul 2024 – Dec 2024

Bilingual Customer Service Representative | Guatemala City

- **Resolved 10–15 technical cases per day at 90% CSAT** for US customers by diagnosing device, network, and account issues in English and walking non-technical users through fixes.

EDUCATION

B.S. Systems and Computer Science Engineering, Universidad de San Carlos de Guatemala

Expected 2027

Relevant coursework: Operating Systems 1 (Docker, Kubernetes, Google Cloud Platform), Systems Seminar 1 (AWS EC2, S3, IAM)

CERTIFICATIONS

Advanced Docker, Platzi (Jul 2026) | Registered Scrum Team Member, Scrum Inc. (Jun 2025)

TypeScript Developer Bootcamp, LaserAnts (Sep 2024) | Seeds for the Future, 1 of 10 Guatemala delegates, Huawei (Oct 2023)
